Professional summary

PhD. Candidate in Computer Science with a strong mathematical foundation (Double Degree in Mathematics & Computer Engineering). Experience in probabilistic Machine Learning, generative modeling, inverse problems, medical imaging, and molecular dynamics. Was a visiting researcher at the University of Cambridge (working on SDE-based MCMC samplers) and Northwestern University (working on attention-based mechanisms). Author of the [torchmil](#) PyTorch library and published researcher at NeurIPS and ICIP (Best Student Paper Award).

Education

2023–2026 **PhD. in Computer Science**, *Probabilistic machine learning methods for weakly supervised and inverse problems. Applications in medicine*, University of Granada, Granada.
2021–2022 **Msc. in Data Science and Computer Engineering**, University of Granada, Granada, GPA: 9.68/10.0.
2017–2021 **Degree in Mathematics**, University of Granada, Granada, GPA: 9.008/10.0.
2017–2021 **Degree in Computer Engineering**, University of Granada, Granada, GPA: 9.077/10.0.
Specialty in Computing and Intelligent Systems

Positions

- Jan. 2023 – **FPU PhD Student**, Department of Computer Science and Artificial Intelligence,
Jan. 2027 University of Granada, Granada.
Funded by an Formación Profesorado Universitario (FPU) research grant, awarded by Ministry of Universities of the Government of Spain.
- Jul. 2022 – **Research assistant**, *Development and evaluation of methods for deblurring and*
Dec. 2022 *color normalization of histological images*, Visual Information Processing (VIP) group, Department of Computer Science and Artificial Intelligence, University of Granada, Granada.

Internships

- Sep. 2025 – **University of Cambridge**, Department of Engineering, University of Cambridge,
Dec. 2025 United Kingdom.
Worked under the supervision of Prof. José Miguel Hernández-Lobato as a visiting student for three months. Extended the SDE-based formulation of diffusion models (including diffusion, flow matching, and stochastic interpolants) to develop a novel MCMC sampling method. Conducted experiments on particle and molecular systems. This work resulted in a paper submitted to ICML 2026.
- March 2024 – **Northwestern University**, Department of Electrical and Computer Engineering,
June 2024 Northwestern University, Evanston, Illinois, United States.
Worked under the supervision of Prof. Aggelos K. Katsaggelos as a visiting student for three months. Conducted research on enhancing the localization capabilities of attention-based models (Transformers) by incorporating spatial information. Performed experiments on medical imaging datasets, including CT scans and whole slide images. This work resulted in a paper accepted at NeurIPS 2024.

Training courses

- July 2025 **London Geometry and Machine Learning (LOGML) Summer School**, Imperial College, London.
Member of the project "Representation Learning and Knowledge Encoding with Biomedical Knowledge Graphs" led by Ruth Johnson. Contributed to expanding the vocabulary of a large language model (LLM) with biomedical knowledge tokens and conducted experiments during the fine-tuning phase.
- August 2022 **OxML Summer School: Health Track**, Mathematical Institute, University of Oxford, Oxford.
- April 2022 **Second training school Cloud Artificial Intelligence for Pathology (Clarify) project (EU funded)**, School of Computer Science and Telecommunications Engineering, University of Granada, Granada.

Grants

- Jan. 2023 – **Formación Profesorado Universitario (FPU)**, Department of Computer Science
Jan. 2027 and Artificial Intelligence, University of Granada, Granada, Awarded by the Ministry of Universities of the Government of Spain.
This grant funded my PhD studies.

- Aug. 2022 **Blas Cabrera Summer School**, Universidad Internacional Menéndez Pelayo, Awarded by the Ministry of Universities.
One-week stay at the Palacio de la Magdalena, Santander. Attendance at seminars and talks given by the country's most renowned researchers
- Sep. 2020 – **Research Initiation for Undergraduate Students**, *A federated learning model to predict COVID19 disease from chest x-rays images*, Department of Computer Science and Artificial Intelligence, University of Granada, Granada.
July 2021 Extension of several deep learning models to the federated scenario. Theoretical and experimental study of various aggregators and data partitions. Under the supervision of Francisco Herrera Triguero and Siham Tabik Ouled Hrou.
- 2017 **English language immersion (Level C1)**, Universidad Internacional Menéndez Pelayo, Huesca.
- July 2015 **Campus Científicos de Verano (Summer Science Campus)**, *TIC-TAC Robot*, Escuela Técnica Superior de Ingeniería, Departament d'Enginyeria Elèctrica, Electrònica i Automàtica, Universitat Rovira i Virgili, Tarragona.
- Sep. 2014 – **Secondary School Innovation Research Initiation Project in Andalusia**, *Stellar Clusters*, Consejo Superior de Investigaciones Científicas, University of Granada, Granada.
May 2015

Awards

- Nov. 2024 **Best Student Paper Award at 2024 IEEE International Conference on Image Processing (ICIP)**, *Bayesian Blind Image Deconvolution using a Hyperbolic-Secant prior*, [Link to the news](#).
- May 2022 **Best Final Degree Project in Computer Engineering**, School of Computer Science and Telecommunications Engineering, University of Granada, Granada.

Reviewer experience

Served as a reviewer for top-tier machine learning venues: NeurIPS, ICML, TMLR, Transactions on Medical Imaging.

Teaching

Courses

- 2024 – 2025 **Development and Design of Information Systems**, Bachelor's Degree in Computer Engineering, University of Granada, Granada.
- 2023 – 2024 **Development and Design of Information Systems**, Bachelor's Degree in Computer Engineering, University of Granada, Granada.
- 2023 – 2024 **ICT in Healthcare and Research Methodology**, Bachelor's Degree in Nursing, University of Granada, Granada.
- 2022 – 2023 **Image feature extraction (assistant)**, Master's degree in Data Science and Computer Engineering, University of Granada, Granada.

Bachelor's and Master's Thesis

- 2023 – 2024 **Blind Image Deconvolution using Deep Learning**, Bachelor's degree in Computer Engineering, University of Granada, Granada.
Student: J. A. Torres Coca, Supervisors: R. Molina, F. M. Castro-Macías.
- 2023 – 2024 **Uncertainty Estimation in Blind Image Deconvolution using Bayesian Deep Image Prior**, Master's degree in Data Science and Computer Engineering, University of Granada, Granada.
Student: A. Pérez Lara, Supervisors: R. Molina, F. M. Castro-Macías.
- 2022 – 2023 **Deep Multiple Instance Learning. Application to Intracranial Hemorrhage Detection**, Master's degree in Data Science and Computer Engineering, University of Granada, Granada.
Student: E. Jiménez Mariscal, Supervisors: P. Morales-Álvarez, F. M. Castro-Macías.

Talks

- Feb. 2025 **Denoising energy matching**, Visual Information Processing seminar.
- Nov. 2024 **The challenges of artificial intelligence in medicine**, Siete Colinas High School, Granada.
- Sep. 2024 **The challenges of artificial intelligence in medicine**, European Researchers' Night, Granada.
- Sep. 2024 **Medical Imaging Classification**, PyData, Granada.
- Sep. 2023 **The wisdom of crowds: Are many people smarter than one expert?**, European Researchers' Night, Granada.
- May 2023 **The Attention Mechanism**, Visual Information Processing seminar.
- May 2023 **Linearized Laplace Approximation for Deep Learning**, Visual Information Processing seminar.
- May 2022 **Artificial Intelligence from the inside**, Academia El Futuro SLU, Granada.
- Jan. 2022 **That so-called Artificial Intelligence**, Centro de Estudios Hermanos Naranjo, Granada.
